

Reading This Shortcut Map

To take advantage of ASP's keyboard shortcuts, you'll need to combine keys indicated in the graphic below to perform specific commands or actions. For example, Select All is written on the 'A' key. To use this shortcut, find the Keyboard combination matching the color (Red = Ctrl + Key) and press the corresponding key, so 'Ctrl + A' to Select All.

Ctrl + Key
Opt + Key
Shift + Key
Ctrl + Shift + Key
Opt + Shift + Key
Ctrl + Opt + Key
Ctrl + Opt + Shift + Key

Customizing Your Keyboard Shortcuts

Is your favorite command missing? You can create your own shortcuts. Go to Preferences > Keyboard, then Click in the Shortcut column next to the Action you want to edit, press the key or key combinations you want to assign it to, click OK and you're done.
